PERSONAL SUMMARY

Full-stack developer with a strong track record of delivering scalable, high-quality web applications using React, Node.js, and MongoDB. Combines a problem-solving mindset with hands-on experience in building responsive UIs and efficient REST APIs. Committed to clean architecture, performance optimization, and collaborative development in agile environments.

TECHNICAL SKILLS

- | | |
|---------------------------------------|---|
| • Frontend: | HTML5, CSS, JavaScript(ES6), React.js, TailwindCSS |
| • Backend: | Node.js, Express.js, REST APIs |
| • Databases: | MongoDB, MySQL |
| • Version Control & Tools: | Git, GitHub, Postman |
| • Soft Skills: | Critical Thinking, Problem Solving, Communication, Teamwork |

PROJECTS

Skill Sync-AI — AI Powered Full-Stack Resume Builder App (In-Progress)

React, TailwindCSS, Node.js, Express.js, MongoDB, Gemini AI, Multer

- Developed a full-stack AI-driven Resume Builder web app using React, Node.js, Express, and MongoDB (MERN stack), enabling users to generate professional resumes dynamically.
- Implemented AI-assisted features for auto-generating professional summaries and skills suggestions, enhancing user productivity and resume quality.
- Designed RESTful APIs and MongoDB schemas to securely handle user data and resume templates, ensuring scalable and efficient back-end functionality.
- Engineered a dynamic, user-friendly interface with React that enables real-time resume generation, interactive editing, and seamless user experience across all devices.

Coin Trail — Full-Stack Expense Tracking App

React, TailwindCSS, Node.js, Express.js, MongoDB, Chart.js, Multer

- Developed a full-stack expense tracking application using React for the frontend and Node.js with Express for a RESTful backend.
- Designed and implemented JWT-based authentication and authorization, ensuring secure user registration, login, and protected API routes.
- Utilized React Context API with useReducer for efficient global state management of user sessions, expenses, and categories.
- Visualized financial data using Chart.js, enabling users to analyze expenses through interactive charts.
- Used Multer for secure file handling, enabling upload and management of user-related assets.

Workout-Buddy — Full-Stack Fitness Tracking App

React, TailwindCSS, Node.js, Express.js, MongoDB

- Built a full-stack workout tracking application using the MERN stack (MongoDB, Express, React, Node.js) with full CRUD support for workout entries.
- Designed MongoDB schemas via Mongoose and implemented RESTful APIs for storing, retrieving, and updating workout data.
- Delivered a responsive React UI with reusable components and smooth frontend-backend integration.
- Implementing JWT authentication and upcoming analytics features (progress charts, workout history).

GitHub : <https://github.com/DinethSheveen/Workout-Buddy>

Crypto-Scope — Crypto Tracking Web App

React, Axios, CoinGecko API, Recharts

- Developed a real-time cryptocurrency price tracking web app using React, Vite, and Tailwind CSS, delivering a fast and responsive user interface.
- Integrated the CoinGecko API to fetch live cryptocurrency prices, market caps, and 24h/7d changes, enabling dynamic market insights.
- Implemented search and multi-currency support, allowing users to find coins quickly and view data in their preferred fiat currency.
- Created interactive charts with Recharts to visualize price trends, improving data comprehension and user experience.

EDUCATION

BEng (Hons) Software Engineering University of Westminster (UK)	Sept 2023 - Present
Foundation Certificate in Higher Education - Distinction Pass Informatics Institute of Technology	Sept 2022 - May 2023
G.C.E Ordinary Level Examination - 9A's Leeds International School Panadura	May 2021/2022

EXTRA - CURRICULAR

North Yorkshire Premiere League	Oct 2025 - Present
Pontefract & District Cricket League Player	Sept 2024 - Sept 2025
IEEE Computer Society Member - IIT	Oct 2023 - May 2024
Organizing Committee Member (Logistics - CodeSprint 08 (2024))	Oct 2023 - May 2024

CERTIFICATIONS

Work - Based Learning (University of Westminster)	Sept 2025 - Present
5 - Day Coding Challenge (Coding Institute)	Sept 2024
CodeSprint 08 Organizing Committee (IEEE Student Branch, IIT)	Oct 2023 - May 2024
